REPORT OF THE TOWN PLANNING BOARD

In pursuance of action taken at the 1945 Town Meeting, the Selectmen appointed seven citizens to serve as members of the Town Planning Board. The first actions of the Board consisted of the adoption of by-laws, election of officers and consultation with representatives of the State Planning and Development Commission—all matters of organization.

Not having the benefit of any precedents to follow, it was deemed wise to proceed slowly at first. However, two important pieces of work have been accomplished. The proposed Zoning Ordinance and Building Code has been the subject of a great deal of work involving examination of the State law, comparison with similar regulations of other towns and conferences with representatives of the State Planning and Development Commission. It is freely admitted that the ordinance might contain a great deal more than it does and amendment in the future will undoubtedly be both necessary and desirable. In its present form it should make a substantial contribution to the safety, beauty and general development of our Town and we strongly urge its adoption.

Another accomplishment which has great possibilities for the future is the drawing of a Town map. This map may be used as a basis for studies relating to a wide variety of subjects such as road work, school bus routes, school location and recreational, industrial, residential and agricultural development. It may be considered a blueprint of the Hopkinton of today and it may be developed into a blueprint of what we would like the Town to be in the future.

Our meetings, discussions and studies have convinced us that the work of a town planning board can be limit-

less. We have asked ourselves many questions with a view toward study in the future: what can be done to improve our schools; does the Town own land which could be growing timber that might pay some of our bills; would a tax map make for a more equitable adjustment of assessed valuations; is there some property which could be devoted to a different and more economical development; should we endeavor to attract more year-round or summer residents; would road maintenance be less expensive if some of our gravel roads were surfaced? A planning board whose members are carefully chosen by the Selectmen can serve as an impartial, well informed fact-finding body to get the answers to these and many other questions.

As more studies are undertaken it is expected that other citizens will be called upon to serve on committees to work with the Board on projects where outside assistance is desirable. Townspeople can perform a real service by making suggestions and presenting their ideas to the Board.

The recently formed Merrimack Valley Region Association in which the Town has membership is an instrument for development, particularly as far as planning on a regional basis is concerned. It is recommended that we give it our support and cooperation, both as individuals and as a town.

EDWARD C. LEADBEATER, *Chairman*

PROPOSED BUILDING CODE AND ZONING ORDINANCE

Town of Hopkinton, N. H.

In pursuance of authority conferred by the Revised Laws of New Hampshire 1942, Chapter 51, sections 50 to 71 inclusive, and Chapter 53, section 14, for the purpose of promoting the health and safety, convenience and general welfare of the Town of Hopkinton, and to make it an attractive place to live, the following ordinance and building code is enacted by the voters of the Town of Hopkinton.

For the purpose of this ordinance the Town of Hopkinton is divided into Zones A and B. Zone A includes the Contoocook Fire Precinct, the Hopkinton Village Fire Precinct and the part of the Town located 500 feet on either side of the center line of the trunk line from Concord to Warner and 500 feet on either side of the center line of the trunk line from Concord to Henniker. Zone B includes the rest of the Town.

Article I. Nothing in this ordinance shall apply to existing structures or to the existing use of any buildings, or the construction, alteration or use of any outbuilding which is necessary to farming, but it shall apply to any new structure or to any alteration of an existing building affecting more than 30 per cent of its square foot area or change in its use.

Article II. In Zone A the following provisions shall apply:

Section 1. The roof of every building hereafter erected or recovered in whole or in part, shall be covered with fire resisting material, except that this section shall not be construed to prohibit the use of wood shingles in repairing any section of roof now covered with wood shingles.

Section 2. Chimneys shall be constructed of stone, brick or concrete and shall be lined with standard chimney flue lining from the ground up and shall extend at least two feet above the roof to which it belongs, and shall have a cleanout opening at the base. All entrances to said chimneys shall be of fireproof construction.

Section 3. Every dwelling shall occupy a minimum ground area of 400 square feet and provide a minimum floor area of 400 square feet for each family unit.

Section 4. All buildings in public use and all dwellings constructed or repaired in the future shall be equipped with cesspool, septic tank, or sanitary chemical toilet unless connected with a public sewer.

Section 5. Every building shall be set back from the front property line not less than 30 feet or such distance as shall conform with the average line of existing buildings 500 feet on either side, and all buildings shall be set back at least 20 feet from the side lot line.

Section 6. No signs shall be permitted except the following: Town and State Highway directional and regulatory signs, historic signs, and those signs which advertise the profession or goods dealt in by the owner or occupant of the property on which placed. No sign or group of signs shall exceed 20 square feet, outside dimensions, and no sign shall be placed so as to obstruct view on highway.

Article III. In Zone B all of the provisions relating to Zone A, except Section 4 of Article II (sewerage) and Section 6 of Article II (signs) shall apply.

Article IV. The owner of any plot of ground intended for development or subdivision into building

lots, shall file with the Board of Selectmen a plan or map of the proposed subdivision, and shall obtain the approval of the Board of Selectmen thereon before proceeding with the development or sale of lots in said subdivision. It shall be the duty of the Board of Selectmen to inspect the site of such proposed subdivision, and to require such roadway and other areas for common use as will eventually be acceptable to the Town for maintenance by the Town, and to approve the same when satisfied that such proposed plans are in harmony with and conducive to the general welfare of the Town and the neighborhood, and not detrimental to existing values, but in no sense shall this be deemed an acceptance by the Town of the street or streets.

Article V. Any structure destroyed by fire, explosions, flood, storm or other act of God, may be rebuilt or reconstructed within one year of its destruction except that if a nonconforming structure is destroyed to a degree affecting 50% or more of its replacement value, it must, when rebuilt, conform to the terms of this ordinance in its location and construction.

Article VI.

Section 1. The Board of Selectmen shall appoint a Building Inspector for a term of one year.

Section 2. The Building Inspector shall be the Administrative Officer of this ordinance.

Section 3. Any person before commencing work on the erection or alteration of any building or structure in Zones A or B, must first obtain a permit duly granted for such erection or alterations by the Building Inspector. There shall be no charge for applications or permit. Before a permit shall be issued by the Building

Inspector, he shall determine whether the proposed construction or alteration conforms to all the conditions of this ordinance and a specific blueprint or other record of the approved plan shall be filed before permit is granted. The Building Inspector shall make known his decision within ten days from the date he received application and he shall make inspections of all buildings in a process of construction and report any violations to the Board of Selectmen.

Section 4. No permit shall be issued for construction or alteration in Zones A or B unless the proposed structure will present a reasonable appearance and will be in keeping with the neighborhood and unless the building is to be finished on the exterior in a permanent manner and is to be suitably painted on the outside whenever the same is of wood or a material customarily painted. This is intended to eliminate the erection of structures obviously out of place for the neighborhood where they are located, and which may have a detrimental effect on property values and neighborhood character. When an objection, on account of the appearance of a proposed structure as above indicated, is raised by a majority of the families residing or owning property within a radius of 500 feet of the property in question, the Board of Adjustment shall hold a public hearing to receive evidence on both sides and shall have the authority to decide whether the permit shall be issued or not.

Section 5. Upon any well founded information that this ordinance is being violated, the Selectmen shall, on their own initiative, take immediate steps to enforce the provisions of this ordinance by seeking an injunction in the Superior Court or by any other appropriate legal action.

Section 6. Whoever violates any of the provisions of the above regulations shall be punished upon conviction by a fine not exceeding $10 for each day of each violation.

Article VII. For the purpose of this ordinance there shall be a Board of Adjustment to whom appeals may be taken and who may, in appropriate cases, make special exceptions to the terms of the aforesaid regulations and restrictions, all as set forth in the following Sections 1/14:

Section 1. The Board of Selectmen shall appoint a Board of Adjustment, which Board pursuant to the regulations and restrictions set forth in this ordinance, may, in appropriate cases and subject to appropriate conditions and safeguards, make special exceptions to the terms of this ordinance in harmony with its general purpose and intent, and in accordance with general or specific rules as put forth in this ordinance.

Section 2. The Board of Adjustment shall consist of five members. When the Board is first organized, one member shall be appointed to serve one year, one for two years, one for three years, one for four years, and one for five years, and thereafter the appointing authority shall annually appoint one member for a term of five years. Said members shall be removable by the appointing authority upon written charges, and after public hearing. Vacancies shall be filled for the unexpired term.

Section 3. The board shall adopt rules in accordance with the provisions of the ordinances. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Such chairman, or in his absence the acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.

Section 4. Appeals to the board of adjustment may be taken by any person aggrieved or by any officer, department, board, or bureau of thé municipality affected by any decision of the administrative officer. Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the officer from whom the appeal is taken and with the board, a notice of appeal specifying the grounds therefor. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken.

Section 5. An appeal stays all proceedings under the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment after notice of appeal shall have been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril of life or property. In such case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board or by the superior court on notice to the officer from whom the appeal is taken and cause shown.

Section 6. The board of adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or attorney.

Section 7. The board of adjustment shall have the following powers:

I. To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by an administrative official in the enforcement thereof or of any ordinance adopted pursuant thereto.

II. To hear and decide special exceptions to the terms of the ordinance upon which such board is required to pass under such ordinance.

III. To authorize upon appeal in specific cases such variance from the terms of the ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice done.

IV. In exercising the above-mentioned powers such board may, in conformity with the provisions hereof, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and make such order, or decision, as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.

V. The concurring vote of three members of the board shall be necessary to reverse any action of such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under any such ordinance, to effect any variation in such ordinance.

Section 8. No member of the board of adjustment shall sit upon the hearing of any question which the board is to decide in a judicial capacity who would be disqualified from any cause, except exemption from service and knowledge of the facts involved gained in the performance of his official duties, to act as a juror upon the trial of the same matter in any action at law. If a member shall be disqualified or unable to act in any particular case pending before the board, the appointing authority, upon application of the board, shall appoint a member to act in his place upon said case.

Section 9. Any person aggrieved by any decision of the board of adjustment or any decision of the legislative body of such municipality in regard to its plan of zoning, or any taxpayer, or any officer, department, board or bureau of the municipality, may apply to the superior court, within thirty days after the action complained of has been recorded, by a sworn petition, setting forth that such decision is illegal or unreasonable, in whole or in part, specifying the grounds upon which the same is claimed to be illegal or unreasonable.

Section 10. The court shall direct the record in the matter appealed from to be laid before it, hear the evidence and make such order approving, modifying or setting aside the decision appealed from as justice may require, and may make a new order as a substitute for the order of the board. The filing of the petition shall not stay proceedings upon the decision appealed from, but the court may, on application, notice to the board and on cause shown, grant a restraining order.

Section 11. An order of court to send up the record may be complied with by filing either the original papers or duly certified copies thereof, or of such portions thereof as the order may specify, together with a certified statement of such other facts as show the grounds of the action appealed from.

Section 12. The court may take evidence or appoint a referee to take such evidence as it may direct and report the same with his findings of fact and conclusions of law.

Section 13. Costs shall not be allowed against the board unless it shall appear to the court that it acted with gross negligence, or in bad faith, or with malice in making the decision appealed from.

Section 14. All proceedings under this subdivision shall be entitled to a speedy hearing.

Article VIII.

Section 1. Whenever the regulations made under the authority hereof differ from those prescribed by any statute, ordinance or other regulation, that provision which imposes the greater restriction or the higher standard shall govern.

Article IX.

Section 1. The regulations, restrictions, and boundaries as set forth in this ordinance, may from time to time be amended or repealed, after a public hearing in relation thereto, by a majority vote at any Town Meeting. In case of a protest against such change, signed by the owners of twenty per cent either of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof extending one hundred feet from the street frontage of such opposite lots, such amendments shall not become effective except by the favorable vote of three fourths of the town meeting.

As shown by the above table, there has been little change in the school statistics for the District for this year. The percent of attendance has improved but is still low. The amount of tardiness has diminished. The number of pupils residing in the District and attending public schools was 234 of whom two attended Concord High. This is 19 less than the total for last year.

Beginning immediately after the Christmas vacation, January 2, 1946, noon lunches were served to the pupils of all the schools in the District. This was accomplished largely by the interest and effort of Headmaster Sterling who secured the cooperation of many people in this project. Under the present arrangements the pupils of the Contoocook Graded School are being served lunches at the High School building. At Hopkinton Village a part of the basement has been prepared for cooking and serving lunches.

We believe that the time has arrived when the people of the district should seriously consider the construction of one centralized or consolidated school for all the pupils of the District. This should include room for the high school and elementary pupils, combined gymnasium and assembly hall, a lunch room, kitchen, etc., also all shop and laboratory facilities for agricultural, home economic and science classes. The cost of such a building would be considerable, but it should not be considered an expenditure but rather an investment in education for the boys and girls of the school district. We believe it would pay good dividends.

THE HEADMASTER'S REPORT

The last Headmaster's Report was for the School Year ending in June 1944, and was published in the town report issued to the citizens of Hopkinton in March 1945. This means that the report for the school year is in the hands of the citizens almost a year late. This year I am including in my report the school year of 1944-45, and also the school year of 1945-1946 through the middle of January 1946. This will make the report more consistent with the rapid changes that have taken place during the past year, and will continue to take place during the next few years.

The enrollment for the year 1944-1945 was 92 pupils distributed as follows: 24 in grade 7; 18 in grade 8; 23 in grade 9; 13 in grade 10; 5 in grade 11; and 9 in grade 12. One of the seniors entered the armed forces before graduation, and eight were graduated in June 1945. So far this year 94 pupils have been registered in this school, only five of whom are seniors. This means that the school enrollment will be still larger next year. This increase in enrollment will tend to continue as fewer people will quit school because of high wages during wartime, more boys will be able to finish school due to easing of draft regulations, and finally because of the tendency for people to settle in small communities.

The High School has been very fortunate in getting experienced teachers to replace teachers who have left to go to other communities, or who have left the profession to get married as two of our fine teachers have done. Mrs. Mildred French and Miss Doris White were added to the teaching staff to fill the vacancies for the school year 1944-1945. Mrs. Marian Kimball and

Mrs. Evelyn Rice replace Mrs. Bodwell (married during the school year) and Miss Dowd who was married in June. The present faculty in ability and experience will compare favorably with other high schools in the state, large or small. They have been extremely cooperative, and it is a great pleasure to work with them.

The extra-curricular activities were still curtailed by the war in the school year of 1944-1945. This year more activities have been added to the school program. A school paper (The Hopkinton Howitzer) is now being published once a month, and as soon as we get a new machine it probably will come out more frequently. This is a fine project and should be a permanent part of the school life. The school orchestra has been continued, though with a small group participating. The large majority of the orchestra pupils are in the lower classes, so we do have a good chance to build up the orchestra. The Glee Club is being strengthened by the efforts of Miss Bailey. We have many more boys in the Glee Club than we have had for the past two years. We do have an urgent need of a new piano, and hope that one will soon be available. It is unfortunate that we were able to carry on dancing school for only one year. However plans have been made to resume dancing school as soon as Mr. Wilder returns from the armed services, which we understand will be soon.

The Student Cooperative Association (student council) is taking more active part in the actual running of school activities. The assembly programs are planned and run by the students in a very efficient manner. These programs, held every Friday afternoon, consist of outside speakers, programs put on by the pupils themselves, or educational films shown on our new

sound moving picture machine, of which we are very proud. Incidentally the machine was paid for in part by the contributions of the classes of 1940 through 1945, in part by the group who purchased the old silent projector, and in part by the school board. All social activity is under the guidance of the S. C. A. This allows for greater uniformity, and does away in part with the idea that nothing must be done in school that does not make money for some class.

On Jan. 2, 1946 the new Hot Lunch Program was started in the Hopkinton Village School and in the High School. There are approximately 40 pupils being served in the village school. In the High School we are serving on the average of 115 pupils a day. This is more than we can efficiently serve, but the program is so beneficial that we will continue until better facilities can be provided. I might add that Mr. Babson is developing considerable skill in seeing that the children drink all their milk and eat all their vegetables. Further that your Headmaster is developing at least a local reputation for his fluffy, white mashed potatoes. The meals have been very well prepared, well balanced from a nutrition viewpoint, and there has been plenty for everyone.

Large numbers of boys who have been in the army are headed back to colleges and trade schools of various types. As a result high school graduates are going to find it more difficult to enter these schools. The schools simply do not have the facilities to take care of all the veterans and all the high school graduates. Graduates who delay too long in making up their mind what they want to do, and those who do only fair work in school will find that they cannot enter these schools. It is absolutely necessary that the pupils seek admission to

college early in their senior year, and that they maintain a high standard of work. This situation will probably continue for three or four years. (Since this report was first written the University of New Hampshire has announced that no out of state students will be admitted this coming year).

Many communities are planning, as they should, some sort of memorial to the boys and girls who served their country so well in World War II. Some communities are planning expensive monuments that people can look at but not use. Other communities are planning playgrounds or buildings that will be of vital use to the community. The greatest, most vital need of the small community is a common meeting place for ALL people irrespective of the village in which they happen to live, the religion they happen to profess, or the organization of which they happen to be a member. That meeting place in a community of our size should be the consolidated school building. The building should contain adequate classroom facilities for the present with the provision for the future growth of the community; facilities for dramatics and assemblies; and a gymnasium for athletic contests and for an all around health and recreational program. Finally it should have a cafeteria for the carrying out of a permanent Hot Lunch Program. These facilities should be made available for an adult educational program: athletic contests for out of school people, adult hobbies such as dramatics, rug making, music appreciation, educational and recreational movies (many fine movies are available at little or no cost), and a meeting place for such organizations as the various Women's Clubs, and even a Men's Club. What finer living tribute could we give our young men and women who are veterans of World War II?

The past year and a half has been for me a very pleasant and happy time. I have enjoyed my association with the children, the people of the community, the School Board, the Superintendent, and last but not least, my association with the teachers with whom I work. In conclusion let us remember, "We cannot stand still. We must go either forward or backwards." Therefore we must continue to go forward to a still better Hopkinton High School.

William C. Sterling
